

A VIEW OF YOUR BUSINESS FROM THE INSIdEOUT

COURTESY OF CGI

"We make P&C insurance a stronger business by developing your products faster using INSIdEOUT"

CGI's INSIdEOUT policy and claims software platform is a complete system to automate the entire back office of your company. Whether you invest in the entire suite or choose individual products, you can be sure you're using leading-edge technology – technology that will transform your business so you can concentrate on your business goals. CGI's INSIdEOUT platform saves you time and money.

- » Integrated suite of modules for underwriting, rating, business rules setting and product introduction to your distribution network which streamlines the introduction of new products and services.
- » Proven policy and claims software system from CGI built on Oracle's solid database and development technology.

Call us today to set up an appointment with CGI to learn more about INSIdEOUT. Meet with us for an hour and we'll give you a superb new Odyssey 2-ball golf putter to accompany the golf club cover that we've provided today.
