[Get \$50 Amazon.com Gift Certificate]

\$50

More than ever in today's economy time is money! You need to be able to make decisions quickly and with confidence. In order to make these decisions, you need access to current, reliable, real-time data, as well as the tools to turn this data into useful information. Oracle, HP, and AdvizeX can provide those tools, and we can tailor a solution to your specific needs!

We want to learn exactly how we can help you respond to the demands and challenges you face today. That's why we hope that you will take the opportunity to participate in a brief phone survey.

By leveraging Oracle's best in class products; robust, scalable hardware from Hewlett-Packard; and AdvizeX's integration expertise, you will be able to better utilize your company's data to identify untapped revenue opportunities, create distance from your competition, and improve your customers' experience with you. You'll accomplish all of this and reduce the Total Cost of Ownership of your current environment.

Sound too good to be true? It gets better... as a token of our appreciation for participating in our survey, we would like to offer you a **\$50 gift certificate to Amazon.com**. We will contact you shortly or you can call us - 800.927.1036.
