Get a FREE iPod mini! 

- **In the time it takes to download a CD's worth of songs,** we can show you why companies big and small are using Oracle E-Business Suite to create a solid foundation that supports them as they grow.
- Dataweb Technologies addresses the strategy, selection, planning, design, implementation and integration of both enterprise and departmental solutions. We leverage our extensive Oracle product knowledge and experience to help firms improve customer relationships, business processes and to gain valuable business insights.
- Dataweb Technologies and Oracle are helping companies become model E-Businesses by implementing Oracle E-Business Suite – the only end-to-end business application that runs on the Internet, supporting E-Businesses across customer relationship management, business to business, financials, projects, human resources and business intelligence functions.
- One of our representatives will be in touch with you very shortly to schedule an appointment, or you can schedule immediately by contacting **Lynn Carlson at 480.661.4038 or lcarlson@datawebtech.com.**
- Receive a **FREE Apple iPod mini!** Simply meet with Oracle and Dataweb Technologies before January 31, 2005 to discuss how we can help you – we'll bring the iPod. Spend an hour with us, then use the included iTunes gift card to start downloading cool stuff to your new iPod.
