 **ADVIZEX**

we give you the power to navigate your business landscape

Databases store and maintain the lifeblood of a company's daily processing activities – they provide direction in the business landscape. Without proper implementation, your company can wander aimlessly. That lack of positioning can exact a severe financial toll.

As an Oracle Certified Advantage Partner, AdvizeX can help you realize the maximum benefits from your database. Our Oracle-Certified professionals have extensive experience setting up environments to enable your applications to grow at the same pace as your business.

AdvizeX delivers Oracle-related services in the areas of:

- E-Business Disaster/Recovery
- Portal Development Application & Database Implementation
- High Availability Infrastructure Assessment
- Oracle Architecture & Design/DBA Outsourcing

Your business isn't a weekend trip. You can't just pack up and head for home if things don't go your way.

Having the right technologies and integration partner can mean the difference between success and GETTING LOST.
