

professional services organizations value our industry-specific solutions

Just like when selecting a fine wine for a specific meal,
experience in the PSO industry is critical
to providing high value solutions.

This bottle of wine was sent
in the hope that it would get
your attention. With that said
– when we call to follow up, it
is our hope that you will allow
us to schedule an appointment
to discuss your business needs.

Re-Quest and Oracle would like to show
you how to:

- Streamline Opportunity Management
- Better Manage Internal and
External Resources
- Collaboratively Manage Project Costs
and Information

If you will give us 30 minutes of your time,
we will share with you how we have used
these techniques to improve margins at
Professional Services Organizations like yours.

As a way of showing our appreciation for
sharing your time, we would like to offer you
a dinner certificate to Morton's of Chicago.
