Morton's of Chicago, Hartford.

Tuesday, March 19, 2002  
6:00 pm to 9:00 pm

RSVP: 888-329-8357

# *Raise Your Spirits*

Strategic Technologies and Oracle Corporation, leaders in the eBusiness Solution Market, are sponsoring an Executive Networking Dinner Event. We want to meet with you to discuss how to leverage your current eBusiness infrastructure investment by utilizing the wealth of customer data that is captured behind the scenes of your eBusiness transactions.

The new Strategic Technologies is a leading advisor and integrator of business and technology. We offer customers a unique blend of services and products that enable them to transform their technology visions into real business value.

Strategic Technologies understands the challenges companies face in regard to staying competitive and profitable. We help our customers meet these challenges by redefining integration – interweaving processes, technology, information, and people in ways that speed up and improve business, reduce costs, and leverage information throughout the enterprise.

Prior to the presentations and full dinner, we will host an hors d'œuvres reception with a special wine tasting. Dinner will be accompanied by wine and concluded with dessert.

Executives from Oracle and Strategic Technologies look forward to addressing all of your eBusiness questions.

*Tuesday, March 19, 2002*

6:00 pm to 9:00 pm at Morton's of Chicago,  
30 State House Square, Hartford, CT 06103
